Felix Jimenez

Website: felix-jimenez.com
Email: felix-jimenez@tamu.edu
Work Authorization: US Citizen

Education

Ph.D., Texas A&M University — College Station, TX
Statistics, *Advisor: Matthias Katzfuss* — 2020–Present

M.S. / B.S., University of Colorado — Boulder, CO
Applied Mathematics — 2014–2018

Experience

Texas A&M University — College Station, TX
Research Assistant — 12/2020-Present
Teaching Assistant — 09/2020-12/2020

- Developed scalable BayesOpt procedure using approximate Gaussian processes.
- TA for statistical learning.

National Institute of Standards and Technology — Boulder, CO
Mathematical Statistician — 11/2019-09/2020
Professional Research Assistant — 05/2018-11/2019

- Stats research: GAN performance on low dimensional multimodal data, hierarchical Gaussian processes for outlier detection.
- Applied research: Bootstrap for quantum tomography, hierarchical Bayesian models for chemical measurements, permutation tests for glass forensics.

University of Colorado — Boulder, CO
Research Assistant — 01/2015-05/2018

- Stats consultant for mechanical engineering and social science projects.
- Carried out numerical studies of simulations of systems of interacting quantum dipoles.

Programming Skills

- Advanced: Python, R, PyTorch, Numpy, ggplot, Linux.
- Beginner: C++, Bash, SQL, AWS.

Selected Courses

- Probabilistic Graphical Models, Statistical Inference, Bayesian Inference, Linear Models, Spatial Statistics, Probability, Math Stats, Bayesian Computation, Numerical Analysis, Network Science.
