

EDUCATION

Ph.D. in Statistics University of Wisconsin-Madison Texas A&M University Advisor: Matthias Katzfuss	2023–Present 2020–2023
B.S/M.S. in Applied Mathematics University of Colorado Boulder	2018

EXPERIENCE

Texas A&M University Research Assistant Teaching Assistant	College Station, TX 12/2020–Present 08/2020–12/2020
Toyota Research Institute Research Intern	Los Altos, CA 05/2023–08/2023
Microsoft Research Research Intern	Cambridge, MA 05/2022–08/2022
National Institute of Standards and Technology Mathematical Statistician Professional Research Assistant	Boulder, CO 11/2019–08/2020 05/2018–11/2019

PUBLICATIONS AND PREPRINTS

- [1] **Felix Jimenez** and Matthias Katzfuss. “Scalable Bayesian Optimization Using Vecchia Approximations of Gaussian Processes”. In: *International Conference on Artificial Intelligence and Statistics*. PMLR. 2023, pp. 1492–1512.
- [2] Jian Cao, Myeongjong Kang, **Felix Jimenez**, Huiyan Sang, Florian Schafer, and Matthias Katzfuss. “Variational Sparse Inverse Cholesky Approximation for Latent Gaussian Processes Via Double Kullback-Leibler Minimization”. In: *International Conference on Machine Learning*. 2023.
- [3] **Felix Jimenez**, Amanda Koepke, Mary Gregg, and Michael Frey. “Generative Adversarial Network Performance in Low-Dimensional Settings”. In: *Journal of Research of National Institute of Standards and Technology* 126 (2021).
- [4] Jolene Splett, Amanda Koepke, and **Felix Jimenez**. “Estimating the Parameters of Circles and Ellipses Using Orthogonal Distance Regression and Bayesian Errors-in-Variables Regression”. In: *Joint Statistical Meetings*. 2019.
- [5] Kristopher Tucker, Bihui Zhu, Robert J. Lewis-Swan, Jamir Marino, **Felix Jimenez**, Juan G. Restrepo, and Ana M. Rey. “Shattered time: Can a dissipative time crystal survive many-body correlations?” In: *New J.Phys.* 20 (Dec. 2018).
- [6] **Felix Jimenez** and Matthias Katzfuss. “Vecchia Gaussian Process Ensembles on Internal Representations of Deep Neural Networks”. In: *arXiv preprint arXiv:2305.17063* (2023).

POSTERS

Scalable Bayesian Optimization Using Vecchia Approximations of Gaussian Processes AISTATS	2023 Valencia, VLC, Spain
Scalable Bayesian Optimization Using Vecchia Approximations of Gaussian Processes IMSI Workshop	2023 Chicago, IL
Measuring Inter-Operator Variability Rocky Mountain Fluid Mechanics Symposium	2016 Boulder, CO
Interacting Quantum Dipoles Dynamics Days	2016 Durham, NC

TALKS

Vecchia Gaussian Process Approximation for Bayesian Optimization Meta AI	2023 Virtual
Vecchia Gaussian Process Approximation for Bayesian Optimization Microsoft Research New England	2022 Virtual
Scalable BayesOpt Using Ordered Conditional Approximations of Gaussian Processes JSM, Speed Session	2021 Virtual
Hierarchical Gaussian Processes for Outlier Detection JSM, Topic Contributed	2020 Virtual
Glass Stats and Crime: Let's Make the Right Decision JSM, Topic Contributed	2019 Denver, CO
Generative Adversarial Network Performance for Low Dimensional Data Quality and Productivity Research Conference, Topic Contributed	2019 Washington, DC

TEACHING

Teaching Assistant - Statistical Learning (STAT 436) Texas A&M University	Fall 2020
Teaching Assistant - Calculus 1 (APPM 1350) University of Colorado Boulder	Fall 2017
Learning Assistant - Matrix Methods (APPM 3310) University of Colorado Boulder	Spring 2017
Learning Assistant - Physics I (PHYS 1110) University of Colorado Boulder	Fall 2016

SCHOLARSHIPS AND AWARDS

Lechner Graduate Grant, \$6,000	2020
---------------------------------	------

Biological Sciences Initiative, \$3,500	2016
Biological Sciences Initiative, \$700	2016
