

Felix Jimenez

Phone: (970) 274-9808
Email: felix.m.jimenez3@gmail.com
Homepage: felix-jimenez.com

Research Interests

Bayesian Statistics, Generative Modeling, Distributed Computing

Education

Texas A&M, College Station, TX Ph.D in Statistics	2020-2024 (expected)
University of Colorado Boulder, Boulder, CO M.S. in Applied Mathematics, Emphasis in Probability and Statistics	2018
University of Colorado Boulder, Boulder, CO B.S. in Applied Mathematics Magna Cum Laude	2017

Professional Experience

Mathematical Statistician, Statistical Engineering Division NIST Boulder, CO	November 2019 - Present
Professional Research Assistant, CU Boulder and NIST Boulder, CO	May 2018 - November 2019
Statistician, CU Boulder Lab. of Interdisciplinary Statistical Analysis Boulder, CO	January 2017 - May 2018
Software Engineering Intern, TransAmerica Denver, CO	May 2017 - Oct 2017

Publications

Felix Jimenez, Amanda Koepke, and Michael Frey, "GAN Performance in Low-Dimensional Settings", *In Progress*.

Felix Jimenez, Amanda Koepke, and Blaza Toman, "Alternatives to the WinBUGS Cut Function", *In Progress*.

Amanda Koepke, **Felix Jimenez**, Kenneth Kroenlein, and Chris Muzny "Hierarchical Bayesian change point models for chemical properties inference", *JSM Conference Proceedings* (2019).

Jolene Splettt, Amanda Koepke, and **Felix Jimenez** "Estimating the Parameters of Circles and Ellipses Using Orthogonal Distance Regression and Bayesian Errors-in-Variables Regression", *JSM Conference Proceedings* (2019).

Kris Tucker, Bihui Zhu, Robert J. Lewis-Swan, Jamir Marino, **Felix Jimenez**, JuanG. Restrepo, and Ana Maria Rey "Shattered Time: Can a Dissipative Time Crystal Survive Many-Body Correlations?", *New Journal of Physics*, 20 123003 (2018).

Talks and Seminars

Hierarchical Gaussian Processes for Outlier Detection Joint Statistical Meetings, Virtual	August 2020
--	-------------

Stats, Glass and Crime: Let's Make the Right Decision Joint Statistical Meetings, Denver, CO	July 2019
---	-----------

Generative Adversarial Network Performance for Low Dimensional Data NIST Statistics Seminar, Washington, D.C.	July 2019
--	-----------

Generative Adversarial Network Performance for Low Dimensional Data Quality and Productivity Research Conference, Washington, D.C.	June 2019
---	-----------

Posters

Interacting Quantum Dipoles Dynamics Days, Durham, N.C.	January 2016
--	--------------

Inter-Operator Variability in the Analysis of Time Resolved Cardiac MRIs Rocky Mountain Fluid Mechanics Research Symposium, Boulder, CO	July 2015
--	-----------

Grants and Awards

Cash-In-Your-Account Award, \$200 Performance bonus for work on NIST grant proposal.	July 2020
---	-----------

Biological Sciences Initiative, \$700 Travel Award	January 2016
---	--------------

Biological Sciences Initiative, \$3,500 "Inter-operator variability in the analysis of time resolved cardiac MRIs"	July 2015
---	-----------

Teaching Experience

Teaching Assistant Calculus I, Applied Mathematics CU Boulder Boulder, CO	August 2017 - December 2017
Learning Assistant Matrix Methods, Applied Mathematics CU Boulder Boulder, CO	January 2017 - May 2017
Learning Assistant Physics I, Physics CU Boulder Boulder, CO	January 2016 - May 2016
Learning Assistant College Algebra, SASC CU Boulder Boulder, CO	January 2015 - Dec 2015
Instructor Introduction to R Short Course, LISA CU Boulder Boulder, CO	February 2017
Instructor Social Network Analysis Short Course, LISA CU Boulder Boulder, CO	October 2017

Professional Memberships

American Statistical Association (ASA)

Society for Industrial and Applied Mathematics (SIAM)
